

HASNAIN RAZA

WEB AND APP DEVELOPER

PROFILE

Goal-oriented and passionate Web & App Developer with a solutions-driven mindset. 3 years of experience in Frontend Development, 1 year in Backend Development, and 2 year in Cross-Platform App Development.

RECENT PROJECTS

Sauced App

2024 - 2025

React Native Developer

- Created a social media platform for culinary enthusiasts to discover, share, and review sauces, promoting community engagement. Hassan Academy [App Store](#) | [Play Store](#)

LCS Web-App

2024 - 2025

React JS Developer

- Developed a project management tool to streamline tasks, progress tracking, and resource allocation. [Visit tool](#).

XDTC OMS Web-App

2024 - 2025

React JS Developer

- Built an Order Management System integrating Shopify for real-time order tracking, factory manufacturing management, and admin invoicing, optimizing dropshipping operations. [Visit tool](#).

Local Volts Web App

2023 - 2024

React JS Developer

- Developed a grid monitoring platform where customers track energy stats, buy/sell electricity rates, and compare prices with other providers. The dashboard offers insights for the last 7 days, 28 days, and yearly trends. [Visit tool](#).

SafeShowings App

2023 - 2024

React Native Developer

- Built a location-tracking app ensuring safety during real estate meetups. Users share live locations with loved ones, triggering alerts if the visit duration expires without manual check-out. Designed for secure property viewings in the U.S. [App Store](#) | [Play Store](#).
