Sauced App: iOS | Android | Crime Watch Alberta: iOS | Android

---

PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience building web and mobile applications. I work with React, Next.js, and React Native on the frontend, and Node.js, Express.js, and Kafka on the backend. I have published multiple mobile applications to both the iOS App Store and Google Play Store, handling the complete process from development to release. I learn new technologies quickly, recently implementing Kafka to solve server stability issues in a high-volume order management system.

TECHNICAL SKILLS

Frontend	React.js, Next.js, React Native, TypeScript, JavaScript, Redux Toolkit, Zustand, Material-UI, ShadcnUI, Tailwind CSS
Backend	Node.js, Express.js, MongoDB, PostgreSQL, Redis, Kafka, BullMQ, Firebase, Docker, Podman, Grafana, Supabase, RESTful APIs
DevOps	AWS EC2, Nginx, Apache, cPanel, Git, SEO Optimization, Core Web Vitals, CI/CD

PROFESSIONAL EXPERIENCE

Full Stack Developer | Markcoders   *2024 - Present*

Karachi, Pakistan

- Built and published Sauced App and Crime Watch Alberta mobile applications for iOS and Android. I handled the complete development process, from converting Figma designs into working apps to submitting them to both app stores.
- Developed the Linton Admin Panel for managing e-commerce orders. When the system started crashing under heavy load, I implemented Kafka to process background tasks, which resolved the stability issues.
- Created order export and invoice generation features that produce Excel and PDF files. I integrated these with Shopify for order tracking and UPS for real-time delivery updates.
- Improved website performance across multiple projects by optimizing code and assets. I consistently achieved Core Web Vitals scores with LCP under 2.5 seconds and CLS below 0.09 for client sites including Verbi-AI, DubTap, and FX-Voyage.
- Built backend APIs and designed database structures using MongoDB and PostgreSQL. I added Redis caching to reduce database queries and improve response times.
- Set up and maintained production servers using Apache and Nginx. I deployed applications on AWS EC2 and cPanel, making sure deployments happened smoothly without downtime.

EDUCATION

Bachelor of Science in Computer Science   *2021 - 2025*

Federal Urdu University of Arts, Science & Technology (FUUAST), Karachi
