PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience specializing in building and maintaining high-performance web and mobile applications. Expert in frontend technologies including React, Next.js, and React Native with strong backend capabilities in Node.js and Express.js. Proven track record of optimizing website performance, achieving LCP scores under 2.5 seconds and CLS scores below 0.09. Successfully deployed 4 mobile applications to iOS App Store and Google Play Store. Experienced in implementing Kafka queue processing for background tasks and server optimization. Skilled in SEO optimization, admin panel development, and cross-platform mobile app development with focus on scalability and production-ready solutions.

WORK EXPERIENCE

Markcoders | *Karachi, Pakistan*

Full Stack Developer

2024 - Present

- Develop and maintain web and mobile applications using React, Next.js, and React Native, delivering high-quality scalable solutions for diverse client requirements
- Optimize website and mobile app SEO performance, achieving LCP scores under 2.5 seconds and CLS scores below 0.09 across multiple projects including Verbi-AI Shopify plugin, DubTap.com, and FX-Voyage web application
- Build and deploy frontend solutions for mobile applications including Safe-Showings for iOS and Android platforms
- Develop full-stack solutions for Blaze Copywriting platform, integrating frontend and backend technologies for seamless user experience
- Deploy and configure web servers using Apache and Nginx, ensuring optimal performance and reliability
- Manage website deployments on cPanel and AWS EC2, implementing best practices for production environments
- Resolve critical SEO issues and implement performance optimizations to enhance Core Web Vitals metrics across client projects
- Fix SEO performance issues and reduce website load times through optimization of JavaScript bundles and image assets

NOP Commerce | *Karachi, Pakistan*

Full Stack Developer

2022 - 2024

- Developed and maintained cross-platform mobile applications using React Native for Sauced App on iOS and Android and Crime Watch Alberta for iOS, focusing on intuitive user interfaces and smooth performance
- Built and optimized Linton Admin Panel as full-stack web application, implementing Kafka queue processing for background and heavy task management to prevent server crashes
- Successfully deployed 4 mobile applications including Sauced App, Safe-Showings, Eko, and Crime Watch to both iOS App Store and Google Play Store, managing complete

submission and review process

- Implemented backend optimization strategies using Kafka for Linton XDTC project, significantly improving system reliability and handling concurrent operations efficiently
- Collaborated with cross-functional teams to gather requirements, develop features, and ensure timely delivery of high-quality applications
- Conducted code reviews and implemented best practices for maintainable and scalable codebases
- Maintained web and mobile applications with focus on performance optimization and bug fixes

TECHNICAL SKILLS

Frontend: React.js, Next.js, Angular, React Native CLI, React Native Expo, Material-UI, ShadcnUI, Tailwind CSS, GSAP, Web Vitals, TypeScript, JavaScript, Redux Toolkit, Zustand

Backend: Node.js, Express.js, Firebase, Redis, BullMQ, Kafka, AWS, MongoDB, PostgreSQL, Bcrypt.js, Crypto.js, Nginx, Apache

Development Tools: Git, SEO Optimization, Core Web Vitals, Mobile App Deployment, Server Configuration, API Development, Performance Optimization, cPanel, AWS EC2

EDUCATION

Bachelor of Science in Computer Science
Federal Urdu University of Arts, Science & Technology (FUUAST)
2021 - 2025

CERTIFICATIONS

- WEB and APP Development Course - Saylani Mass IT Training (SMIT) - Completed January 25, 2023
- MERN Stack Development Course - Government of Sindh Initiative - Completed August 28, 2023
- Python Programming Course - UXL - Completed March 16, 2024

KEY PROJECTS

Verbi-AI Shopify Admin App

Developed frontend for SEO plugin React web app integrated with Shopify. Optimized performance achieving LCP under 2.5 seconds and CLS below 0.09.

Technologies: React.js, Next.js, Shopify API, Web Vitals

Linton Admin Panel and XDTC

Built full-stack admin panel with Kafka queue processing for background tasks. Prevented server crashes through efficient queue management.

Technologies: React.js, Node.js, Express.js, Kafka, MongoDB

Safe-Showings Mobile Apps

Developed cross-platform mobile applications for iOS and Android. Successfully deployed to App Store and Play Store.

Technologies: React Native, Redux Toolkit, Firebase

FX-Voyage Web App

Optimized SEO performance and Core Web Vitals metrics. Implemented responsive design and smooth user experience.

Technologies: Next.js, React.js, Tailwind CSS

Sauced App

Built frontend for iOS and Android food delivery application. Deployed successfully to both app stores.

Technologies: React Native, Firebase, Redux

SOFT SKILLS

Problem-solving, Critical Thinking, Team Collaboration, Communication, Time Management, Prioritization, Attention to Detail, Performance Optimization, Adaptability, Continuous Learning

LANGUAGES

Urdu - Native (C2)
